

Termicon

Complete Management of soil
TERMITES and WHITE GRUBS

PRODUCT INFORMATION

'Termicon' is a combination of highly effective bio agents with proprietary formulation technology to control soil **Subterranean termites and white grubs**. it can also control soil pests like - cutworms, Root Borers, Beetles etc.

UNIQUE MODE OF ACTION

'Termicon' does not kill instantly, but it has been formulated to attract host pest like termites and then enter inside their system and mortality can be seen within 48 – 72 hours.

APPLICATION METHOD

AGRICULTURE AND HORTICULTURE CROPS

Dilute 250 Grams. -1000 Grams Per Hectare Per Month for best results
OR

Dilute 100 Grams. -400 Grams Per Acre Per Month for best results with sufficient quantity of water in pre soaked or moist soil and drench near the plant root zone or the infected area 6-8 inches below the surface.

CONSTRUCTION SITES, GOLF GROUND, PLAYING STADIUMS AND LAWNS

For SANDY areas in Construction Sites ,Golf Grounds ,Playing Stadiums and Lawns use 'Termicon' by making 1% solution (10 gram per litre) in water and use 1 liter solution with water per 10 square meter land area at least 6-8 inches under the soil.

For Protection and Prevention of Termite attack: 'Termicon' should be applied in the sand mix before DPC level during any construction at 1% Concentration -dilute 10 gram in every 1 liter water solution

SAFETY

'Termicon' is 100% safe for human beings, animals, predators, earthworms and can be used for organic farming.

COMPATIBILITY

'Termicon' is compatible with most of Bio Pesticides, Imidacloprid, Cypermethrin. 'Termicon' is not compatible with Chemical Pesticides Chloropyriphos, Endosulfan, Carbofuran, Fungicides and Nematicides. Always check compatibility or ask Huntin representative before use.

Innovative product with highest possible global standards.

100% water soluble so can be given via drip irrigation.

Can be applied at all stages of crop production work best at early stages.

Maintain ecological balance and does not create resistance, resurgence and residual problem.

Positive results can be seen with single application, but with recommended dose total control can be achieved

MOST IMPORTANT: TEST! SEE! COMPARE! DECIDE!

Available packs:

100 ml, 250 ml,
500 ml, 1 L, 5 L
